

CAPABILITY STATEMENT 2026

Microsoft Cloud

- Identity Management / Hybrid Authentication
- O365 Hybrid / Modern Hybrid
- Microsoft Intune / Auto Pilot / AutoPatch
- Conditional Access
- Exchange Online
- Entra ID Hybrid Join
- OneDrive / SharePoint Online
- Cloud PKI Deployment
- Azure Site Recovery (ASR)
- Privileged Identity Management (PIM)
- Microsoft Defender for Endpoint/Identity
- Azure IaaS/PaaS, Azure SQL, Sentinel

Cyber Security

- Vulnerability Assessments (Internal/ External) and Penetration Testing
- Risk Assessment Scoring / Internal Audits
- ACSC Essential Eight Alignment (all levels)
- Emergency Incident Response Works
- Patch Management and Security Maintenance works
- Vulnerability Management (Tenable Cloud / Nessus)

Infrastructure / Datacentre

- DELL Gold Partners
- DELL PowerEdge Servers
- DELL ME4, SC, Unity XT, PowerStore Storage products
- DELL PowerSwitch S-Series, N-Series, Z-Series, X-Series
- Nutanix AHV / VXRail
- Infrastructure Refreshes (design/ implementation)
- Network Design (multi-site / multi-datacentre)

ISP / Telephony Provider

- NBN Business Connections (FTTN, FTTB, FTTP, HFC, Fixed Wireless, Satellite)
- NBN Metro Ethernet L2/L3 services
- MS Teams Telephony
- Broadworks & 3CX cloud platforms
- Contact Centre and UC Platforms

Microsoft Technologies

- Active Directory Design / Migration
- Microsoft Exchange
- SQL Server
- Microsoft Configuration Manager (aka SCCM)
- Public Key Infrastructure
- Windows Server Platform
- Active Directory Federation Services
- Microsoft Remote Desktop and Remote-App
- Role Based Access Control

Software Development

- Small application development engagements
- Modifications/Changes to existing in-house applications/source code
- Word/Outlook Add-in development
- API Integration
- Database Design
- Sharepoint Development
- Application Packaging

Web Filtering / Anti-Spam

- Forcepoint, WebTitan / Secure Email, Mimecast
- Turnkey Design/Deployment Services

Structured Cabling

- Open Caber Registration Endorsements
- Structured Cabling
- Coaxial
- Fibre Optic
- Fibre Splicing
- New building fit outs or installation of additional data points

Backup Products

- Veeam, Veritas and StorageCraft
- Veeam Cloud Connect Partner
- StorageCraft Offsite Backup Cloud provider
- Backup Monitoring
- Backup Design/Implementation services
- Microsoft 365 Backups (Active Backup)

Firewalls

- Specialists in FortiNet, PaloAlto, Cisco ASA, Meraki
- Design / Migrations
- SD-WAN Solutions
- VPN Site to Site, User Based
- Unified Threat Management solutions and IPS
- Application and User Control
- Sandboxing Configuration
- High availability, WAN failover, BGP failover, Redundant WAN routing

Monitoring Solutions

- PRTG
- Zabbix
- Nagios
- Cacti

Asset Management

- Lansweeper deployment and config
- Snipe-IT asset management

Corporate CCTV / Public Surveillance

- Enterprise Grade CCTV design
- Large-scale CCTV installation
- Significant works in WA State CCTV and Safer Communities programs
- Corporate VMS products including Milestone, Genetec and Avigilon.
- Design and Implementation of large scale wireless CCTV networks exceeding 40 wireless links.
- Civil constructions of CCTV infrastructure.
- Anti-theft and equipment weather-proofing
- Server Infrastructure, Network and Storage design works for large surveillance systems.

Alarms and Access Control

- Commercial access control and alarm design and installation
- Integration with corporate CCTV products.
- Specialists Innerrange Integriti and Paradox

Outdoor Wireless

- Licensed and Unlicensed P2P and P2MP Design
- ACMA Co-ordination studies
- Specialists in Cambium, Siklu, Radwin, Ubiquiti and DragonWave.
- Links up to 35KM
- Link Alignment services
- Communication Equipment rigging

Indoor Wireless

- Specialists in Cisco Aironet, HP Aruba and Ubiquiti
- Wireless Site Surveys
- Network Design
- PEAP/EAP Configuration (802.1x)
- Structured Cabling / AP Installation
- WLC Deployment / Configuration
- RADIUS (NPS / Clearpass)

Disaster Recovery

- VMware Stretched Cluster
- Layer2 / Layer3 Disaster Recovery failover solutions
- Microsoft Azure Site Recovery
- Veeam Cloud Connect Partner
- Veeam Backup and Replication Failover
- VMware SRM

Virtualization

- VMware vCenter, Nutanix AHV, Hyper-V
- Hyperconverged (VxRAIL / Nutanix)

Routing and Switching

- Advanced network design/ implementation engagements.
- Multi-site / Multi-Datacentre routing topologies.
- Dark Fibre / Leased Fibre / MPLS

Network Security

- Network Segmentation
- Network Access Control (NAC)
- Aruba Clearpass
